USER MANUAL

Basic Parameters

Model: S18
Main Materials: ABS/PP/
Electronic Components
Rated Input: 5V=1A
Power: 3-3.7W
Battery Capacity: 1200mAh
Charging Time: 1.5-2.5H
Execution standards: GB4706.1-2005

4 Adjustable Gears

Gear 1 /
Liquid Output: 10ml

Gear 2 /
Liquid Output: 20ml

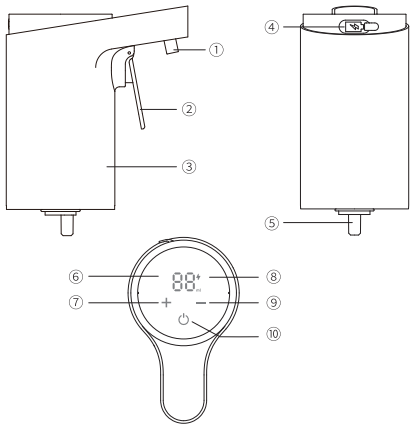

Gear 3 /
Liquid Output: 30ml

Custom Mode /
Liquid Output: Adjustable
as needed

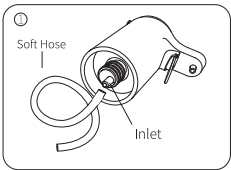

Output Tolerance: ±3ml

Product description

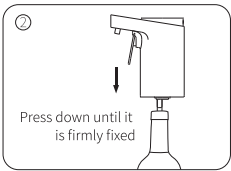

- ① Liquid outlet
- ② Liquid outlet button
- ③ Host
- ④ Type-C charging port
- ⑤ Liquid inlet
- ⑥ Liquid output display screen
- ⑦ Free gear position "+" (increase)
- ⑧ Charging indicator light
- ⑨ Free gear position "-" (decrease)
- ⑩ Power switch/gear switch

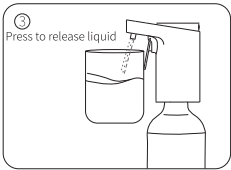

Installation/Use

Fix the hose to the inlet

Align the bottom of the product
with the bottle mouth and press
down to firmly connect it with
the container

After turning on the machine,
press the liquid release button
once to release liquid as needed
according to the gear position

Operation method

【Power on/off】 Long press the power button for 2 seconds to power on, the liquid discharge display screen lights up, and the default is 1st gear, the screen displays 10mL; Press and hold for 2 seconds again to power off, the display screen and charging indicator light flash 3 times.

【Gear switch】 In the on state, short press the power button once to switch to 2nd gear, the screen displays 20mL, the second short press switches to 3rd gear, the screen displays 30mL; The third short press switches to free gear, the screen displays 00mL; the fourth short press switches back to 1st gear, and the cycle continues.
